

WATER EVAPORATORS

serie WT3 W/S CF

Forced triple effect circulation Evaporators, heated by hot water or steam, with external heat exchangers.

Vacuum operating, water or air condensation.

This system allows to reduce, till 33%, energy and cooling water consumption.

Concentrations till 1,25 kg/dm³ of specific weight and 20% in suspended solids.

technical characteristics	unit of measur	WT3 450 CF #		WT3 750 CF		WT3 1050 CF		WT3 1500 CF		WT3 2400 CF		WT3 3000 CF

● Standard

** Available also in special materials

W Production and absorbed power refer to operating with heating water at 85°C (IN) and 75°C (OUT), and cooling water at 25°C (IN) and 30°C (OUT).

S Production and absorbed power refer to operating with steam 0,9 bar and cooling water 25°C (IN) and 35°C (OUT).

□ Flows of heating and cooling fluids are calculated on 600 kcal/kg total evaporation heating.

◇ Flows of steam refer to saturated steam at 0,9 bar.

Models available with air condenser.

Contact information update:

We have begun the long arduous process of moving our office.
Please continue to direct mail to:

Sawyer and Smith Corporation
5412 Homegardner Road
Castalia, Ohio 44824

All phone contact to:
423.289.6894

All other email and website information remains the same. You can contact us at any of the existing web addresses. Email is received remotely and responded to more quickly and efficiently than a phone message. If you call the office, please leave a thorough message INCLUDING your email address so that we can send you the required information as soon as possible.

Thank You.
